**ProPlus license included for students at no additional cost when Office is purchased for faculty and staff*

***ERP per user/month (Student / Faculty)*

****These services will be included after initial launch*

Beginning December 1, 2013, education institutions worldwide that license Office 365 ProPlus or Office Professional Plus for staff and faculty can provide access to [Office 365 ProPlus](#) for students at no additional cost. More than 35,000 institutions are automatically eligible to deliver the Student Advantage benefit to their students. Office 365 Education provides students with cloud based productivity tools that help them to communicate and collaborate more efficiently, access assignments in shared workspaces, have their notes synchronized in OneNote and the ability to use familiar applications such as Word, PowerPoint and Excel anywhere, anytime and across virtually any device. With 110 million users worldwide, we're thrilled Office 365 Education is helping students to get the most out of their education while gaining valuable skills that will help them enter the future workforce.

To experience the full communication and collaboration capabilities of Office 365 Education, it is recommended that institutions deploy both Office 365 Plan E1 (now Office 365 Education) and Office 365 ProPlus for their students. FYI, free Office 365 Plan E1 (now Office 365 Education) is available to all qualified education customers through the Microsoft Online Portal, www.office.com/education, but not through OVS-ES.
